PROFESSIONAL SUMMARY

Full-Stack Software Developer with practical experience building responsive web applications using modern frontend and backend technologies. Experienced with React, JavaScript, HTML, CSS, Tailwind CSS, Node.js, Express.js, and MongoDB. Developed web projects including a laboratory website during a frontend development internship and a planetary education platform focused on the solar system. Passionate about building functional, user-friendly applications and continuously expanding software development skills.

TECHNICAL SKILLS

Frontend	HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Vite
Backend	Node.js, Express.js
Database	MongoDB
Tools	Git, GitHub, VS Code, Postman

PROFESSIONAL EXPERIENCE

Best Laboratories — Front-End Developer Intern

2024 – 2025

- Developed the laboratory's website using React.
- Built responsive and user-friendly web interfaces.
- Implemented frontend components and page layouts using modern web technologies.
- Worked with React to create a functional and maintainable website.

PROJECTS

Novara Capstone Project — Planetarium Education Website

React • JavaScript • HTML • CSS

- Developed an educational website designed to help users learn about the solar system and planets.
- Created responsive and interactive interfaces using React and modern frontend technologies.
- Organized planetary information into an accessible and engaging user experience.

GitHub: github.com/M-rick-34/Techy-Nerds.git • Live: techy-nerds.vercel.app/#planets

React Developer Portfolio / CV Website

React • JavaScript • Tailwind CSS • Vite

- Designed and developed a responsive personal portfolio website to showcase software development skills, projects, experience, and contact information.
- Implemented reusable React components, responsive layouts, and interactive animations.
- Integrated GitHub and LinkedIn profile links and project demonstrations.
